The Memphis & Charleston.

Chattanooga June 27.—A bill was filed in the United States Court here to foreclose the mortgage on the Memphis & Charleston Railway. The style of the bill is James A. Roosevelt and William M. Johnson against the Memphis & Charleston Railway Company Samuel Thomas C. O. Iselin the Farmers' Loan & Trust Company and the Central Trust Company of New York. The complainants aver that the company is insolvent and has defaulted in its interest and therefore pray for a sale. The case will be heard at the next term of court. The filing of the bill is considered a preliminary step by the Southern Railway to get possession of the road.

Knoxville, June 30—John D. Caldwell representing the first mortgage bondholders of the Memphis & Charleston Railroad Company left to-night for Sherdeen Miss., to file a bill to foreclose the mortgage and asking for the sale of the road. Similar bills have been filed in the Tennessee courts at Memphis and the Alabama courts at Huntsville. Mr. Caldwell represents his brother who acted as special commissioner in the sale of the old East Tennessee Virginia & Georgia Railway system. It is given out here and is generally understood that the road will be ordered sold within a few weeks and on that the Southern Railway will become the purchaser. One of the courts will issue a decree for sale of the property, which will be concurred in by the Judges of the different courts through which the road passes.

Now the Sequachee Literary Society has taken a vacation from debating, the old subject has been taken up whether Katy did or Katy didn't and will be continued until further notice.

An Original Chorus.

The following song was composed for the closing chorus Saturday night. It is original with the exception of the first verse and the music. For these latter we are indebted to Messrs. Gilbert & Sullivan, formerly of London, England. It is taken from the comic opera, "Patience" and is the Chorus of Dragoons in Act 2nd.

We've been thrown over we're aware.

But we don't care, but we don't care,
There's fish in the sea, no doubt of it,
As good as ever came out of it,
And some day we shall get our share.
So we don't care, so we don't care.

For prizes blanks we've often drawn,
But we don't care, but we don't care,
Because if my love isn't fair to me,
Why what care I how fair then she be
And every dog will get his day,
So we don't care so we don't care.

Sequachee's turn is coming yet,
Yes, we do care; yes, we do care,
And if hope deferred has made us sick

Then courage we say and be a brick,
And then will come good fortune rare,

And we won't care, no, we won't care.

The moral of our play is this
Let rum alone, let rum alone,
Be sure you don't touch or taste of any

And thus be enrolled among the many

Who lead pure lives
And you'll succeed and you'll succeed.

Coal is All Right.

Crossville June 29.—The several barrels of coal recently shipped to St. Louis for analysis have been reported upon. The examining chemist says that for coking purposes it is far ahead of the Pennsylvania coal. The analysis was made for the Niedringhaus Company of which C. O. Godfrey is President. Mr. Godfrey owns a number of undeveloped coal banks in this county. This means much for Cumberland County and with the completion of the Tennessee Central in the near future the prospects for Crossville becoming a town of considerable size are flattering.
